

How to log in to a Google account

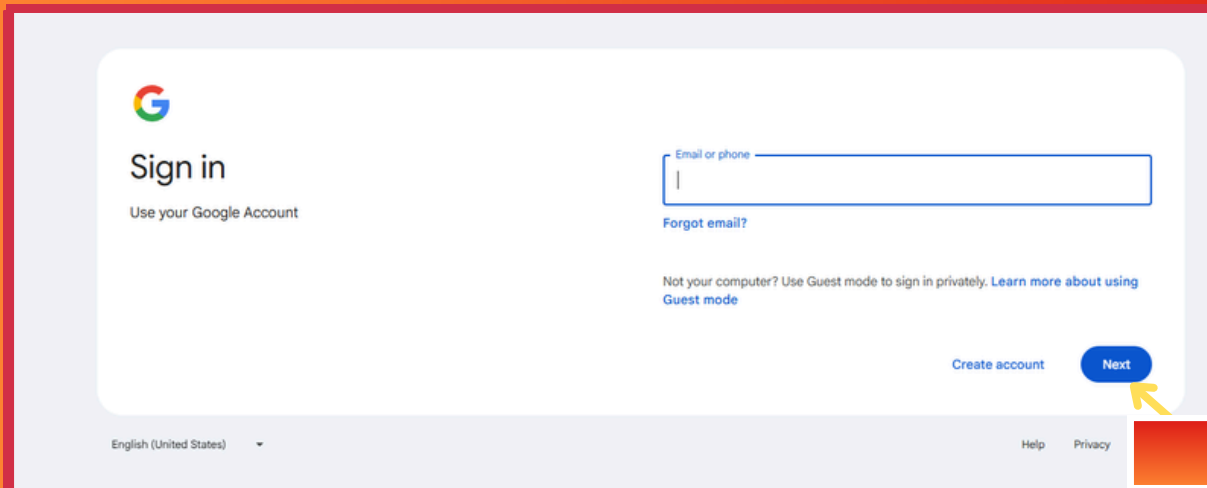

1. Purchase an account and follow the link or use the data immediately.

2. Enable a paid and stable VPN that matches your account's geographic location. Check your IP online.

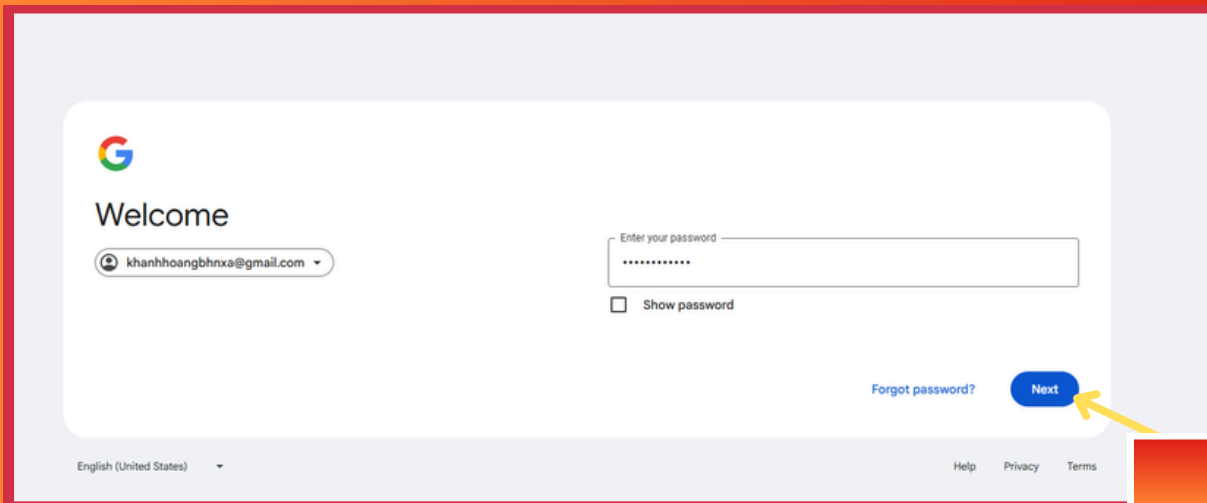

3. Log in to accounts.google.com. Enter your email address and password.

The image shows the Google Sign in page. On the left, there is a Google logo and the text "Sign in" and "Use your Google Account". On the right, there is a text input field labeled "Email or phone" with a cursor inside. Below the field is a link "Forgot email?". Further down, there is a link "Not your computer? Use Guest mode to sign in privately. Learn more about using Guest mode". At the bottom right, there are two buttons: "Create account" and "Next". A yellow arrow points from the "Next" button to a red callout box on the right.

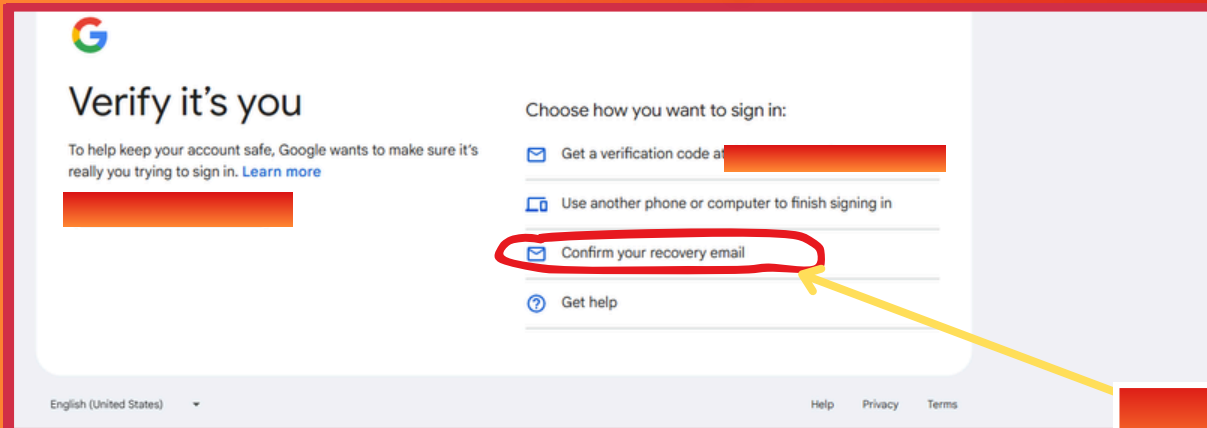

Click it!

The image shows the Google Welcome page. On the left, there is a Google logo and the text "Welcome". Below the text is a user profile icon and the email address "khanhhoangbhnxa@gmail.com". On the right, there is a text input field labeled "Enter your password" with a password mask "*****". Below the field is a checkbox labeled "Show password". At the bottom right, there are two buttons: "Forgot password?" and "Next". A yellow arrow points from the "Next" button to a red callout box on the right.

Click it!

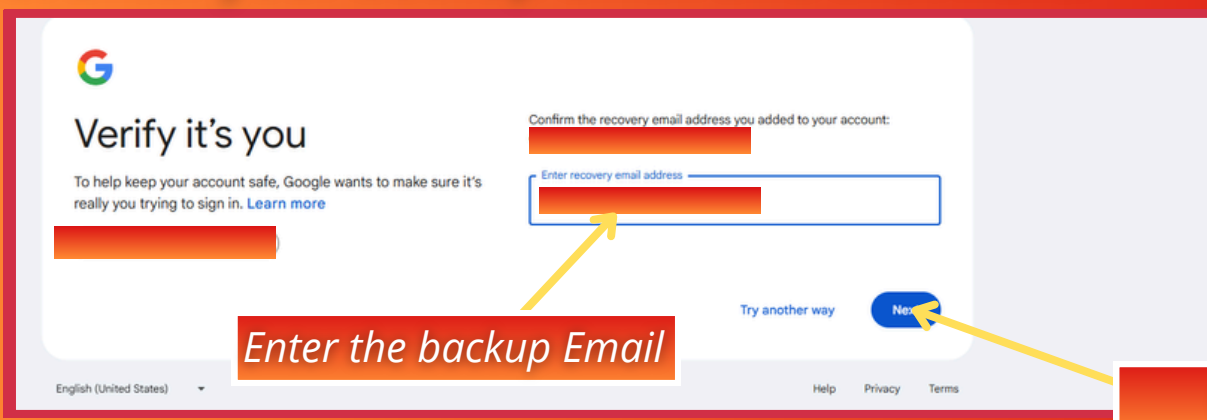

4. Select "Confirm the backup email address."

The image shows the Google "Verify it's you" page. On the left, there is a Google logo and the text "Verify it's you". Below the text is a paragraph: "To help keep your account safe, Google wants to make sure it's really you trying to sign in. Learn more". On the right, there is a section titled "Choose how you want to sign in:". Below this title are four options, each with an icon and a text label: "Get a verification code at" (with a redacted email address), "Use another phone or computer to finish signing in", "Confirm your recovery email" (which is circled in red), and "Get help". A yellow arrow points from the "Confirm your recovery email" option to a red callout box on the right.

Click it!

5. Enter your backup email and click next.

The image shows the Google "Verify it's you" page. On the left, there is a Google logo and the text "Verify it's you". Below the text is a paragraph: "To help keep your account safe, Google wants to make sure it's really you trying to sign in. Learn more". On the right, there is a section titled "Confirm the recovery email address you added to your account:". Below this title is a text input field labeled "Enter recovery email address" with a redacted email address. A yellow arrow points from the "Enter recovery email address" field to a red callout box at the bottom. At the bottom right, there are two buttons: "Try another way" and "Next". A yellow arrow points from the "Next" button to a red callout box on the right.

Enter the backup Email

Click it!

6. Enter the backup Email address again, then save it (if it doesn't work, cancel it).

Make sure you can always log in to your account.

Provide your recovery information so that we can contact you if you are unable to log in to your Google account.

If you encounter such errors, please check your VPN and try using a different browser. If this does not resolve the issue, please contact our support team on the website and provide screenshots of the error and any additional information requested by our support team.

Verify it's you

There is something unusual about your activity. For your security, Google wants to make sure it's really you.

Enter a phone number to get a text message with a verification code.

Google will store this number and only use it for security purposes. Standard message and data rates may apply.

Try another way Next

Confirm your identity

To protect your account, Google needs to verify that you are the person trying to log in.

Check the device

27

A notification has been sent to your Vivo V2026 device. To confirm your identity, tap YES in the notification, then select code 27 on your phone.

Send it again
